

17 SEASONAL

Scavenger Hunt Ideas

Summer

- Find five different leaf shapes and sort by type
- Locate an animal home (burrow web hive nest)
- Find something that uses camouflage
- Spot three flying insects and describe how they move differently

Winter

- Find animal tracks and identify the creature
- Spot three evergreen species and compare their needles
- Find evidence of life under bark rocks or soil
- Observe frost patterns and describe the shapes
- Locate a bird and watch it for five minutes

Autumn

- Collect five leaves in different stages of color change
- Find three different seed dispersal strategies (wind animal gravity)
- Spot evidence of an animal preparing for winter
- Find something decomposing and describe what is breaking it down

Spring

- Find a plant at three stages of growth (seed, sprout, mature)
- Spot an insect pollinator visiting a flower
- Find evidence of a bird building a nest
- Locate a puddle ecosystem and observe what lives near it
